Andrew Wyeth - 2017-05-02
The major paintings of iconic American artist Andrew Wyeth (1917–2009) presented together in an accessible volume. Andrew Wyeth is an essential introduction to the enduring masterworks of this profoundly popular American artist. Published on the occasion of the centennial of the artist’s birth, this handsome book highlights works spanning the entirety of the artist’s seven-decade career painting the landscapes and people he knew in Chadds Ford, Pennsylvania, where he lived, and in Maine, where he summered. Many of his most important landscapes and portraits were created in and around his Chadds Ford studio, now part of the Brandywine River Museum of Art, with which Andrew Wyeth was intimately connected since its founding in 1971. A short introduction provides an overview of his life, and descriptive captions contextualize some fifty of the artist’s finest and most beloved paintings, including Pennsylvania Landscape (1922), Wind from the Sea (1947), Christina’s World (1948), Trodden Weed (1951), Roasted Chestnuts (1956), Braids (1977), and Pentecost (1989). Readers will also be treated to works previously unseen, such as Betsy’s Beach (2006) and Crow Tree (2007).

Best Choices from the People’s Pharmacy - Joe Graedon 2006-10-31
From the trusted authors of the “People’s Pharmacy” syndicated newspaper column comes Best Choices from the People’s Pharmacy, an essential reference that empowers readers to make intelligent, informed choices from among the array of treatment options—home remedies, herbal and nutritional supplements, and prescription and over-the-counter drugs—available today. We can read the newspaper for candid restaurant or movie reviews or consult Consumer Reports for an impartial analysis of the best buys on toasters or automobiles. But where can we find objective evaluations of popular treatments for conditions like arthritis, high cholesterol, and migraines? Joe and Teresa Graedon, the best-selling authors of The People’s Pharmacy, will fill the void with a comprehensive new reference that presents all the information readers need to become savvy health-care consumers. The book offers: • best-choice treatments for 50 medical conditions—from allergies, asthma, and heartburn to high blood pressure and osteoporosis • a remedy ratings guide to compare the effectiveness and affordability of various treatment options • compelling new information on the potential dangers of generic drugs Featuring a list of the authors’ must-read books, this updated version of a classic—a must-read for the 21st century.

Very Cold People - Sarah Manguso 2022-02-08
The masterly debut novel from “an exquisitely astute writer” (The Boston Globe), about growing up in—and out of—the suffocating constraints of small-town America. “Compact and beautiful . . . This novel borders on a novella punches above its weight.”—The New York Times “Very Cold People reminded me of My Brilliant Friend.”—The New Yorker ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker, NPR, Good Housekeeping “My parents didn’t belong in Waitsfield, but they moved there anyway.” For Ruthie, the frozen town of Waitsfield, Massachusetts, is all she has ever known. Once home to the country’s oldest and most illustrious families—the Cabots, the Lowells: the “first, best people”—by the tail end of the twentieth century, it is an unforgiving place awash with secrets. Forged in this frigid landscape Ruthie has been dogged by feelings of inadequacy her whole life. Hers is no picturesque New England childhood but one of swap meets and factory seconds and powdered milk. Shame blankets her like the thick snow that regularly buries nearly everything in Waitsfield. As she grows older, Ruthie slowly learns how the town’s prim facade conceals a deeper, darker history, and how silence often masks a legacy of harm—from the violence that runs down the family line to the horrors endured by her high school friends, each suffering a fate worse than the last. For Ruthie, Waitsfield is a place to be survived, and a girl like her would be lucky to get out alive. In her eagerly anticipated debut novel, Sarah Manguso has written, with characteristic precision, a masterwork on growing up in—and out of—the suffocating constraints of a very old, and very cold, small town. At once an unglided portrait of girlhood at the crossroads of history and social class as well as a vital confrontation with an all-American whiteness where the ice of emotional restraint meets the embers of smoldering rage, Very Cold People is a haunted jewel of a novel from one of our most virtuosic literary writers.

People’s China - 1957
Too many of us have invested ourselves into relationships that left us deeply wounded. We’ve been abandoned or taken advantage of, and left with little to show for what we’ve given. We’ve lost our sense of security and personal value in the process. And what’s worse, we tend to either repeat the same mistakes of judgment over and over . . . Or else lock the doors of our hearts entirely and throw away the key. Why do
we choose the wrong people to get involved with? Is it possible to change? And if so, where does one begin? 
Drs. Henry Cloud and John Townsend offer solid guidance for making safe choices in relationships, from  
friendships to romance. They help identify the nurturing people we all need in our lives, as well as ones we  
need to learn to avoid. Safe People will help you to recognize 20 traits of relationally untrustworthy people.  
Discover what makes some people relationally safe, and how to avoid unhealthy entanglements. You’ll learn  
about things within yourself that jeopardize your relational security. And you’ll find out what to do and what  
not to do to develop a balanced, healthy approach to relationships.  

The Bog People - P.V. Glob 2004-08-31  
One spring morning two men cutting peat in a Danish bog uncovered a well-preserved body of a man with  
a nose around his neck. Thinking they had stumbled upon a murder victim, they reported their discovery to  
the police, who were baffled until they consulted the famous archaeologist P.V. Glob. Glob identified the  
body as that of a two-thousand-year-old man, ritually murdered and thrown in the bog as a sacrifice to the  
goddess of fertility. Written in the guise of a scientific detective story, this classic of archaeological history—  
best-seller when it was published in England but out of print for many years—is a thoroughly engaging  
and still reliable account of the religion, culture, and daily life of the European Iron Age. Includes 76 black-  
and-white photographs.  

The Most Intriguing People of the Century - 1998  
This book collects and celebrates 100 years of the pop culture personalities who defined our century,  
featuring some of the most memorable photos ever shot.  

The People of the Book - Gertrude Himmelfarb 2011  
The history of Judaism has for too long been dominated by the theme of antisemitism, reducing Judaism to  
the recurrent saga of persecution and the struggle for survival. The history of philosemitism provides a  
corrective to that abysmal view, a reminder of the venerable religion and people that have been an  
inspiration for non-Jews as well as Jews. There is a poetic justice — or historic justice — in the fact that  
England, the country that expelled the Jews in medieval times but produced rich literary literature and  
philosemitism in modern times. From Cromwell supporting the readmission of the Jews in the 17th century,  
to Macaulay arguing for the admission of Jews as Members of Parliament in the 19th century, to Churchill  
urging the recognition of the state of Israel in the 20th, some of England’s most eminent writers and  
statesmen have paid tribute to Jews and Judaism. Their speeches and writing are powerfully resonant  
today. As are novels by Walter Scott, Disraeli, and George Eliot, which anticipate Zionism well before the  
birth of the modern nation. The Jews and England’s statesmen have paid tribute to Jews and Judaism. Their  
speeches and writing are powerfully resonant today. As are novels by Walter Scott, Disraeli, and George Eliot,  
which anticipate Zionism well before the birth of the modern nation. From Cromwell supporting the  
readmission of the Jews in the 17th century, to Macaulay arguing for the admission of Jews as Members of  
Parliament in the 19th century, to Churchill urging the recognition of the state of Israel in the 20th, some  
of England’s most eminent writers and statesmen have paid tribute to Jews and Judaism. Their speeches  
and writing are powerfully resonant today. As are novels by Walter Scott, Disraeli, and George Eliot, which  
anticipate Zionism well before the birth of the modern nation. From Cromwell supporting the readmission  
of the Jews in the 17th century, to Macaulay arguing for the admission of Jews as Members of Parliament  
in the 19th century, to Churchill urging the recognition of the state of Israel in the 20th, some of England’s

performing teams, increase employee motivation, and use data to build an inviting and effective company culture. Author Jack Altman, cofounder and CEO of Lattice, an award-winning HR and performance management platform, shows you how to: Establish the values that will form the bedrock of your organization Develop feedback processes that help employees feel heard, supported, and equipped to succeed Monitor the breadth and depth of employee engagement in your company Use the data and insights created by your People Strategy to drive business results Perfect for executives, managers, and human resource professionals, People Strategy also belongs on the bookshelves of anyone with even an interest in how to develop, nurture, and unlock the potential of their employees and colleagues.

**We the People** - Benjamin Ginsberg 2017

Politics is relevant and participation matters.

**Pocahontas's People** - Helen C. Rountree 1996

In this history, Helen C. Roundtree traces events that shaped the lives of the Powhatan Indians of Virginia, from their first encounter with English colonists, in 1607, to their present-day way of life and relationship to the state of Virginia and the federal government. Roundtree’s examination of those four hundred years misses not a beat in the pulse of Powhatan life. Combining meticulous scholarly and sensitivity, the author explores the diversity always found among Powhatan people, and those people’s relationships with the English, the government of the fledgling United States, the Union and the Confederacy, the U.S. Census Bureau, white supremacists, the U.S. Selective Service, and the civil rights movement.

**CRISPR People** - Henry T. Greely 2022-03-01

What does the birth of babies whose embryos had gone through genome editing mean—for science and for all of us? In November 2018, the world was shocked to learn that two babies had been born in China with DNA edited while they were embryos—as dramatic a development in genetics as the 1996 cloning of Dolly the sheep. In this book, Hank Greely, a leading authority on law and genetics, tells the fascinating story of this human experiment and its consequences. Greely explains what Chinese scientist He Jiankui did, how he did it, and why others scientists learned about and objected to this unprecedented genetic intervention. The two babies, nonidentical twin girls, were the first “CRISPR’d” people ever born (CRISPR, Clustered Regularly Interspaced Short Palindromic Repeats, is a powerful gene-editing method). Greely not only describes He’s experiment and its public rollout (aided by a public relations adviser) but also considers, in a balanced and thoughtful way, the lessons to be drawn both from these CRISPR’d babies and, more broadly, from this kind of human DNA editing—“germline editing” that can be passed on from one generation to the next. Greely doesn’t mince words, describing He’s experiment as grossly reckless, irresponsible, immoral, and illegal. Although he sees no inherent or unmanageable barriers to human germline editing, he also sees very few good uses for it—other, less risky, technologies can achieve the same benefits. We should consider the implications carefully before we proceed. **Handbook for Mortals** / Joanne Lynn, Joan Harrold, and the Center to Improve Care of the Dying, George Washington University. 1999.

**Cities for People** - Jan Gehl 2013-03-05

For more than forty years Jan Gehl has helped to transform urban environments around the world based on his research into the ways people actually use—or could use—the spaces where they live and work. In this revolutionary book, Gehl presents his latest work creating (or recreating) cityscapes on a human scale. He clearly explains the methods and tools he uses to reconfigure unworkable cityscapes into the landscapes he believes they should be: cities for people. Taking into account changing demographics and changing lifestyles, Gehl emphasizes four human issues that he sees as essential to successful city planning. He explains how to develop cities that are Lively, Safe, Sustainable, and Healthy. Focusing on these issues leads Gehl to think of even the largest city on a very small scale. For Gehl, the urban landscape must be designed by people who care about the city in which they live and work, not just for them, but for all who will ever walk its streets.

**How to Win Friends and Influence People** - Dale Carnegie 2012

**The People’s Book** - Jennifer Powell McNutt 2017-04-11

The Bible played a vital role in the lives, theology, and practice of the Protestant Reformers. These essays from the 2016 Wheaton Theology Conference bring together the reflections of church historians and theologians on the nature of the Bible as “the people’s book,” considering themes such as access to Scripture, the Bible’s role in worship, and theological interpretation.

**A People of One Book** - Timothy Larsen 2011-01-27

Although the Victorians were aware in texts, the Bible was such a pervasive and dominant presence that they may fittingly be thought of as ‘a people of one book’. They habitually read the Bible, quoted it, adopted its phraseology as their own, thought in its categories, and viewed their own lives and experiences through a cypher, and maintained religious, cultural, and, to some extent, political allegiance through the Bible. The Bible was transverse across the religious spectrum from Catholics to Unitarians and beyond. The scripture-saturated culture of nineteenth-century England is displayed by Timothy Larsen in a series of lively case studies of representative figures ranging from the Quaker prison reformer Elizabeth Fry to the liberal Anglican pioneer of nursing Florence Nightingale to the Baptist preacher C. H. Spurgeon to the Jewish author Grace Aguilar. Even the agnostic man of science T. H. Huxley and the atheist leaders Charles Bradlaugh and Annie Besant were thoroughly and profoundly preoccupied with the Bible. Serving as a tour of the diversity and variety of nineteenth-century views, Larsen’s study presents the distinctive beliefs and practices of all the major Victorian religious and sceptical traditions from Anglo-Catholics to the Salvation Army to Spiritualism, while simultaneously drawing out their shared, common culture as a people of one book.

**The People’s Network** - Robert MacDougall 2011

The Bell System dominated telecommunications in the United States and Canada for most of the twentieth century, but it was not inevitable. In the decades around 1900, ordinary citizens—farmers, doctors, small-town entrepreneurs—established tens of thousands of independent telephone systems, stringing their own wires to bring this new technology to the people. Managed by opportunists and idealists alike, these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy. As the Bell empire grew, independents fought fiercely to retain control of their local networks and companies—a struggle with an emerging corporate giant that has been almost entirely forgotten.

**People Strategy: How to Build a Team of High Performers, Engaged Employees, and Happy Customers** - Benjamin Ginsberg 2017

You have ever read a short, simple book that inspired your mind and lifted your spirits—a book that you couldn’t wait to pass onto family and friends? People First provides illumination for everyone who truly wants to make a difference in their own life and in the lives of others. It’s a transformative 5-step philosophy told in a story format. Lannom believes that in any situation, when you put people first, you will be rewarded. If an employer treats employees as “purpose partners”, success is sure to come. Lannom does not just spell out this advice, he also presents an interesting fiction story of a life-like situation. Dan Burton, CEO of a company is unhappy with his company’s profits and his personal life, and he learns the valuable lesson of putting people first from his Sifu, Kung Fu instructor. Sifu teaches Dan the Pyramid of People Power. Through this Dan learns how to balance his personal and public lives.
Neighborhoods, People, and Community - Roger Ahlbrandt 2013-03-09
This book focuses on neighborhoods and the people living in them. It describes differences among neighborhoods in terms of their social and institutional structure, attitudes of the residents, quality of life, and the characteristics of the residents. The book is based on the results of a survey of almost 6,000 residents living throughout the city of Pittsburgh. As such it provides the basis for examining groups of people as well as whole neighborhoods. The communal aspects of urban living are discussed in Chapters 1 and 2; attachment toward the neighborhood in Chapter 3; importance of relig ion, life cycle, and race in Chapter 4; various aspects of individual social support systems and neighborhood social fabric in Chapters 5, 6, and 7; the contextual aspects of the neighborhood environment in Chapters 8 and 9; and the implications for urban policy in Chapter 10. The results of the analysis described in the book pro vide a detailed understanding of differences in the struc ture and composition of urban neighborhoods, and they show why some groups of people are drawn into their neighborhoods whereas others rely more upon the wider community to meet a variety of needs. The analysis pro vides the framework in which to address the implications of urban policy, particularly with respect to mental health prevention and neighborhood and community renewal.

Empowering Young People in Disempowering Times - Hans-Uwe Otto 2017-12-29
Following the 2008 economic crisis, the situation for young people deteriorated dramatically in many European countries. Employment and training opportunities have reduced, and levels of poverty and social exclusion have increased. This book evaluates both institutional frameworks and programmes as well as the quantitative and qualitative basis of judgements in European youth policies that dominate current strategies. This book evaluates both institutional frameworks and programmes as well as the quantitative and qualitative basis of judgements in European youth policies.

Natural Wine for the People - Alice Feiring 2019-08-06
A compact illustrated guide to the emerging and tremendously popular category of natural wine, a style that focuses on minimal intervention, lack of additives, and organic and biodynamic growing methods. Today, wine is more favored and consumed than it’s ever been in the United States—and millennials are leading the charge, drinking more wine than any other generation in history. Many have been pulled in by the tractor beam of natural wine—that is, organic or biodynamic wine made with nothing added, and nothing taken away—a movement that has completely rocked the wine industry in recent years. While all of the hippest restaurants and wine bars are touting their natural wine lists, and while more and more consumers are calling for natural wine by name, there is still a lot of confusion about what exactly natural wine is, where to find it, and how to enjoy it. In Natural Wine for the People, James Beard Award-winner Alice Feiring sets the record straight, offering a pithy, accessible guide filled with easy definitions, tips and tricks for sourcing the best wines, whimsical illustrations, a definitive list of the must-know producers and bottlings, and an appendix with the best shops and restaurants specializing in natural wine across the country, making this the must-buy and must-gift wine book of the year.

One Health - Ronald M. Atlas 2014-03-20
Emerging infectious diseases are often due to environmental disruption, which exposes microbes to a different niche that selects for new virulence traits and facilitates transmission between animals and humans. Thus, health of humans also depends upon health of animals and the environment—a concept called One Health. This book presents core concepts, compelling evidence, successful applications, and remaining challenges of One Health approaches to thwarting the threat of emerging infectious disease. Written by scientists working in the field, this book will provide a series of “stories” about how disruption of the environment and transmission from animal hosts is responsible for emerging human and animal diseases. It explains the concept of One Health, the history of One Health paradigm shift, traces the emergence of devastating new diseases in both animals and humans, presents case histories of notable, new zoonoses, including West Nile virus, hantavirus, Lyme disease, SARS, and salmonella, links several epidemic zoonoses with the environmental factors that promote them, offers insight into the mechanisms of microbial evolution toward pathogenicity, discusses the many causes behind the emergence of antibiotic resistance, presents new technologies and approaches for public health disease surveillance, offers political and bureaucratic strategies for promoting the global acceptance of One Health.

The Book of Other People - Zadie Smith 2008-01-02
A stellar host of writers explore the cornerstone of fiction writing: character. The Book of Other People is about character. Twenty-five or so outstanding writers have been asked by Zadie Smith to make up a fictional character. By any measure, creating character is at the heart of the fictional enterprise, and this book concentrates on writers who share a talent for making something recognizable human out of words (and, in the case of the graphic novelists, pictures). But the purpose of the book is variety: straight “realism” if such a thing exists—not the point. There are as many ways to create character as there are writers, and this anthology features a rich assortment of exceptional examples. The writers featured in The Book of Other People include: Aleksandar Hemon Nick Hornby Hari Kunzru Toby Litt David Mitchell George Saunders Colm Toibin Chris Ware, and more. Read Zadie Smith’s newest novel, Swing Time.

Normal People - Sally Rooney 2019-04-16
NOW AN EMMY-NOMINATED HULU ORIGINAL SERIES • NEW YORK TIMES BESTSELLER • “A stunning novel about the transformative power of relationships” (People) from the author of Conversations with Friends, “a master of the literary page-turner” (J. Courtney Sullivan). ONE OF THE TEN BEST NOVELS OF THE DECADE—Entertainment Weekly TEN BEST BOOKS OF THE YEAR—People, Slate, The New York Public Library, Harvard Crimson AND BEST BOOK OF THE YEAR—The New York Times, The New York Times Book Review, O: The Oprah Magazine, Time, NPR, The Washington Post, Vogue, Esquire, Glamour, Elle, Marie Claire, Vox, The Paris Review, Good Housekeeping, Town & Country & Connell and Marianne grew up in the same small town, but the similarities end there. At school, Connell is popular and well liked, while Marianne is a loner. But when the two strike up a conversation—an awkward but fascinating encounter—Marianne finds her feet in a new social world while Connell hangs at the sidelines, shy and uncertain. Throughout their years at university, Marianne and Connell circle one another, straying toward opposite ends of the political spectrum but always magnetized, irresistibly drawn back together. And as they we ve into self-destruction and he begins to search for meaning elsewhere, each must confront how far they are willing to go to save the other. Normal People is the story of mutual fascination, friendship and love. It takes us from that first conversation to the years beyond, in the company of two people who try to stay apart but find that they can’t. Praise for Normal People “[A] novel that demands to be read compulsively, in one sitting.”—The Washington Post “Arguably theuzziest novel of the season, Sally Rooney’s elegant sophomore effort . . . is a worthy successor to Conversations with Friends. Here, again, she unflinchingly explores class dynamics and young love with wit and nuance.”—The Wall Street Journal “[Rooney] has been hailed as the first great millennial novelist for her stories of love and late capitalism. . . . [She writes] some of the best dialogue I’ve ever read.”—The New Yorker

The Lucifer Effect - Philip G. Zimbardo 2008-03
In a disturbing and revelatory exploration of the human capacity for evil, renowned psychologist Zimbardo examines how everyone is susceptible to the power of malevolence. He also offers hope and guidance, elucidating the importance of true heroism and disobedience.

Extraordinary People - Darold A. Treffert 2000
For the first time in Extraordinary People, the psychiatrist who was a consultant to the movie Rain Man, collects the most fascinating cases of Savant Syndrome both in history and modern times. Dr. Treffert documents the spectacular abilities—the islands of genius—in these remarkable persons, and describes as well the love, determination and dedication of their equally remarkable families, teachers and caretakers. He shares the observations of the far-reaching implications this astonishing condition has for understanding brain function and hidden potential in all of us.

Time Tactics of Very Successful People - Eugene Griessman 1994-06-22
A new approach to time management focusing on how highly successful people get their work done without sacrificing the life they live. This entertaining volume has what no other time management book has: insights on how to manage time from high achievers such as Malcolm Forbes, Jr., Ted Turner, Sandra Day, Dr. Johnnetta Cole, and Home Depot CEO Bernie Marcus. Dr. B. Eugene Griessman has interviewed hundreds of contemporary peak performers (and researched dozens of historical high achievers) to unearth...
the secrets of their success. He presents their time management tactics in short “Bites” designed to inspire
today’s time-starved reader whether they’re overworked managers, working moms, entrepreneurs on the
go, or even newly unemployed people who must suddenly learn to structure their own time.

Working with Vulnerable Children, Young People and Families - Graham Brotherton 2013-07-24
The potential for early intervention to prevent social problems later in life has become the focus of much
debate in recent years and finds itself at the centre of contemporary social policy. The meaning of
‘vulnerability’ – one of the key concepts in this drive – is examined in this book, as well as the relationship
between vulnerability and the individual, communities and society. This book introduces students to a
broad debate around what constitutes vulnerability and related concepts such as risk and resilience, and
examines how vulnerability has been conceptualised by policy makers with a clear focus on early
intervention. Adopting a case study approach, it opens with chapters examining the concept of vulnerability
from sociological, psychological and social policy perspectives before looking at examples around disability,
homelessness, leaving care, victims of violence, sexual abuse, prison, the Internet and drug use. Supporting
students in engaging with and evaluating the conceptualisation and application of vulnerability in
professional practice, this book is suitable for anyone either preparing for or currently working within the
children’s workforce, from social work and health care to education and youth work.

Anxious People - Fredrik Backman 2020-09-08
Instant #1 New York Times Bestseller A People Book of the Week, Book of the Month Club selection, and
Best of Fall in Good Housekeeping, PopSugar, The Washington Post, New York Post, Shondaland, CNN, and
more! “[A] quirky, big-hearted novel...Wry, wise, and often laugh-out-loud funny, it’s a wholly original story
that delivers pure pleasure.” —People From the #1 New York Times bestselling author of A Man Called Ove
comes a charming, poignant novel about a crime that never took place, a would-be bank robber who
disappears into thin air, and eight extremely anxious strangers who find they have more in common than
they ever imagined. Looking at real estate isn’t usually a life-or-death situation, but an apartment open
house becomes just that when a failed bank robber bursts in and takes a group of strangers hostage. The
captives include a recently retired couple who relentlessly hunt down fixer-uppers to avoid the painful truth
that they can’t fix their own marriage. There’s a wealthy bank director who has been too busy to care about
anyone else and a young couple who are about to have their first child but can’t seem to agree on anything,
from where they want to live to how they met in the first place. Add to the mix an eighty-seven-year-old
woman who has lived long enough not to be afraid of someone waving a gun in her face, a flustered but
still-ready-to-make-a-deal real estate agent, and a mystery man who has locked himself in the apartment’s
only bathroom, and you’ve got the worst group of hostages in the world. Each of them carries a lifetime of
grievances, hurts, secrets, and passions that are ready to boil over. None of them is entirely who they
appear to be. And all of them—the bank robber included—desperately crave some sort of rescue. As the
authorities and the media surround the premises these reluctant allies will reveal surprising truths about
themselves and set in motion a chain of events so unexpected that even they can hardly explain what
happens next. Rich with Fredrik Backman’s “pitch-perfect dialogue and an unparalleled understanding of
human nature” (Shelf Awareness), Anxious People is an ingeniously constructed story about the enduring
power of friendship, forgiveness, and hope—the things that save us, even in the most anxious times.
